Thanks Angela. Will you and Stephanie be coming in together or will you need separate parking spots? As you can imagine, these spots are at a premium and are not always available.

Hi Jill,

I have provided a call-in number to the EPA attendees for the pre-meeting. Stephanie and I will definitely need a parking space and I'm guessing that Betsy will too as Stephanie and I will be coming up from Vineland that morning.

EPA attendees (by phone): Pat Evangelista (acting Division Director), John Prince (Deputy Director), Eric Schaaf (Regional Counsel), Sarah Flanagan (Chief, New Jersey Superfund Branch, Office of Regional Counsel) and Rich Henry (Eco assessor, Environmental Response Team)

EPA attendees (in person): Stephanie Vaughn (Chief Mega Projects Section), Betsy Donovan (Remedial Project Manager), Angela Carpenter (Chief, Special Projects Branch), Juan Fajardo (site attorney) and Mike Clemetson (eco risk assessor)

Angela

Hi all. I forgot to request that you forward the date and time of the meeting / presentation to all of those from EPA that will be attending the Sept 5th Eco Assessment presentation at the DEP, but who were not copied on my August 27th email. Let me know if anyone wants me to score them a parking spot in the visitor's lot next to the building. They fill up fast, so I would need to know soon.

The attendees from DOI will be: Mike Horne and George Molnar (USFW); Kim Childe and Lois Godfrey Wye (DOI); and Preston Sowoll and Linda Ziccardi with Applied Intellect who will be making the presentation. Melissa Papasavvas and Carlton Morris will be participating from DOI/FWS by phone.

The attendees from DEP will be Steve Maybury (Bureau Chief of BCM); Maurice Migliarino (Section Chief in BCM); Steve Byrnes (Eco Support in BEERA); and me.

Please verify that EPA will be providing a call-in number for the pre-meeting conference that will be held between DEP and EPA.

DOI will be providing a conference line number for the actual meeting / presentation itself. That number is 1-866-647-4979, code 1214898#.

- Jill

Subject: Rolling Knolls - DOI Presentation of FS Assessment Report Findings

Hi all. Please reserve the afternoon of **September 5th from 12:30 – 3:00 PM** to attend the above referenced meeting / presentation. The attendees will include DOI and USFW staff and its consultant; SRP staff (Steve Maybury, Maurice Migliarino, Steve Byrnes and Jill McKenzie) and EPA representatives. Several attendees will be participating via phone. As per EPA's request, we (DEP and EPA) will have a pre-meeting conference. This pre-meeting will take place from 12:30 – 1:00. The meeting with DOI/USFW is scheduled to follow from 1:00 – 3:00.

Please pass this on to whoever else will be participating from EPA. Also, space is somewhat limited in the room I reserved, so keep that in mind. Based on recent conversations with Betsy, I am assuming approximately 4- 5 people attending in person from EPA with others phoning in.

I will provide a complete list of names and affiliations of all attendees once I receive that info from EPA and DOI/USFW. Thanks in advance! - Jill
